

About Us

In 1962 Everett Roehl started Roehl Transport with a single truck. Today, over 60 years later, Roehl Transport is one of North America's safest trucking companies.

Under the leadership of CEO Rick Roehl, we remain a family-owned, multi-modal carrier, offering a wide variety of transportation services. With over 2,200 power units and 5,800 trailers on the road, we can satisfy your transportation needs.

We are a 4-time recipient of Trucking's Top Safety Honor, the ATA's President's Award. We have also earned hundreds of other awards while operating one of the newest and safest fleets in the industry.

Customer Service

With every truckload, Roehl provides superior customer service support from our knowledgeable team. A representative will work directly with you to support and take care of your unique transportation needs. Our team is here to build relationships while providing outstanding service and communication. Roehl also offers online load tracking, EDI and API capabilities, as well as electronic tendering, billing, and invoicing.

Capacity Solutions

Roehl can build a tailored capacity solution to satisfy your unique business needs.

DRY VAN & REFRIGERATED SOLUTIONS

Roehl's Dry Van and Refrigerated fleets provide safe and reliable transportation throughout the United States. We offer 53' Dry Van trailers with load sensors and 53' High Cube Capacity Refrigerated trailers with door sensors. Refrigerated trailers are equipped with 24/7 temperature monitoring systems as well as remote on/off capabilities, 50-gallon fuel tanks, and air-ride suspension.

FLATBED & SPECIALIZED SOLUTIONS

Roehl has one of the largest flatbed fleets in the US with highly skilled driving professionals and a diverse variety of equipment. We offer 48' and 53' aluminum flatbeds, 48' curtainsides, accordion tarp trailers, 48' and 53' step decks, as well as specialized and RGN trailers. Our drivers have the resources, experience, and expertise to reliably haul standard and specialized shipments across America.

DEDICATED SOLUTIONS

From short-term projects to long-term contracts, you can secure Roehl capacity and knowledge to optimize your freight flows and ensure your products are delivered on time and safely. Roehl has a legacy of proven experience in dedicated operations and will create a custom dedicated solution utilizing dry van, refrigerated, flatbed, curtainside and specialized equipment to service any commodity as an extension of your business.

Maintenance

Roehl operates and maintains one of the newest fleets in the industry. Our terminals have first-class maintenance facilities with highly skilled personnel, and our drivers have access to 24/7 maintenance support. We measure our downtime in minutes, not days, like others might. We also invest heavily in safety features on our equipment and training for our teammates because keeping our trucks, trailers and drivers moving safely helps us deliver for our customers.

Innovation & Technology

We are a true transportation industry innovator. From real-time load tracking on tractors and box trailers to internal and external product EDI/API capabilities, to route planning and optimization to our smartphone app with features like electronic document and load securement photo submission, we leverage technologies to deliver better service to you. Our Tier 3 Data Center has a 99.982% Uptime, and we've leveraged technology and equipment to make delivering your freight more efficient and safer.

Roehl delivers confidence and satisfaction by living our values.
